

## **Dr. Greg Norman**

**Board Position:** Director

Dr Greg Norman is the Practice Principal of three general practices in the suburbs of Bywater, Jindalee and Forest Lake in Brisbane's south west. He undertook his general practice training while a member of the Australian Airforce.

As Company Wing Commander he was instrumental in testing the new climate controlled and self sufficient tents of the Air Transportable Hospital outside of the Richmond RAAF Base, participating in the first surgery outside of the Base. He was then part of about 35 personnel from No. 3 Air Transportable Hospital and a similar number of personnel from No. 395 Expeditionary Combat Support Wing provided medical support to the Army's School of Infantry at Singleton.

As a Board member Greg brings a strong business acumen as Principal of three newly established practices in Brisbane's southwest, and a growing interest in community involvement through the Division's programs.
