

# Diabetes Connect

## Connecting Professions: Connecting Online

Diabetes Connect is the only integrated training approach for GPs and non-GPs for the care of patients with type 2 diabetes anywhere in Queensland.

### Project Objectives

- Increase the capacity of general practice to meet the complex needs of patients with diabetes
- Enhance care and communication pathways between general practitioners and other key health and community service providers

### Connecting Professions

Diabetes Connect is a series of online learning modules and interprofessional learning workshops designed for a broad range of health professionals involved in supporting the management of type 2 diabetes.

### Connecting Online

The expansion of the statewide web based iHealth Care+ Directory to include local diabetes services ensures GPs can link patients with diabetes services more quickly and earlier in the course of their disease.

### Connecting You

Accoras will be delivering a one-day Diabetes Connect workshop from 9:00am to 4:30pm on Saturday February 25 2012. The workshop will be hosted in our training room at Unit 1B / 172 Evans Road, Salisbury. Please visit <http://bit.ly/v1IPAz> to register to attend this workshop.
