Dear Practice Manager / Practice Nurse,

PROVISION OF IMMUNISATION ADVICE

Brisbane South Division is now providing a **new immunisation service** to support practices. The Division is pleased to announce this new and unique service for the provision of clinical advice for immunisation enquiries, by an endorsed Nurse Immuniser.

The aim of this service is to assist your practice with enquiries ranging from those of a general nature through to more complex enquiries, via secure fax and phone lines.

The BSD Immunisation Enquiry fax can be accessed through the Division's website under Immunisation Resources or if you do not have internet access, please call to organise postage of the forms to your Practice.

This fax enquiry form has been developed to ensure that your enquiries have the correct, relevant information required to plan a catch up schedule.

This clinical advice service will be managed by the Division's Immunisation Coordinator with the provision of clinical advice through the following secure fax and phone lines:

- **Fax : 3306 1099**
- **Mobile : 0411 721 949**
- **Office : 3274 1886**

The secure fax line ensures that client data and patient confidentiality is maintained.

We work hard to provide you with convenient and timely provision of support and advice, but we do not guarantee that this is provided at the time of consultation.

Important: Please complete the required data before faxing an enquiry form to expediate this processing of your enquiry.

Further enquiries can be made to:

Helen Sutcliffe
Immunisation Coordinator
Ph: 3274 1886
Mobile: 0411 721 949
Email: hsutcliffe@brisbanesouth.com.au
Immunisation fax enquiry: 3306 1099

Disclaimer:

This support service is offered by the Brisbane South Division to provide immunisation information for the benefit of general practice. The service provides access to current resources to assist clinicians in their decision making process. Clinicians are required to exercise their own independent skill or judgment, not solely relying on this service, and are ultimately responsible for the care of their patient and the provision of immunisation services. While all attempts will be made to ensure the accuracy of the information provided by this service, Brisbane South Division and their respective servants and agents, to the maximum extent permitted by law, accept no liability for any direct, indirect or consequential loss, injury, adverse reaction, claim or damage resulting from the use or application of this service. By utilising this service, the Clinician agrees to a clear understanding and acceptance of this statement.
